

JLG 3509 Telescopic Handler

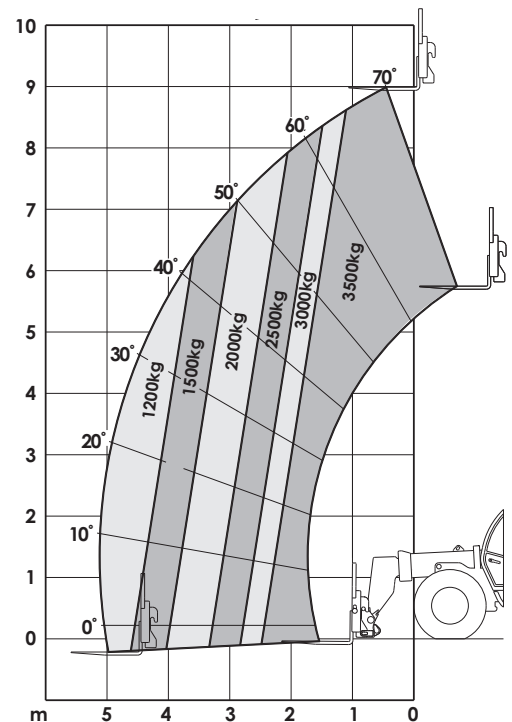

Cape Containers has a JLG3509 4x4 Telescopic Handler for hire to the South West Region.

Perfect for outdoor construction, especially rough terrain, this diesel powered Telehandler can be used for all forklift duties with the added benefit of lifting materials to greater distances and higher altitudes. The machine can be hired with Forklift tines and/or Crane jib providing versatility to the user.

- Smooth, precise control
- 4x4 rough terrain
